Total number of participants:	50	From total number of countries:	8

Description

Provide a short description of the event and its activities.

The forth event of the Green IT Your Work Project, entitled " GREEN IT YOUR SKILLS!" was organized during 4th and 7th of December, by CARDET based in Nicosia, Cyprus, as it follows:

- 4th of December was the arrival day in Nicosia, Cyprus. All participants were given their public transportation tickets. The partners who arrived early went for a welcome dinner offered by CARDET;
- 5th of December was focused on presentations about climate change, sustainable fashion, buildings and urban environment and air quality by an environment expert. The presentations included interactive activities, discussions and reflection. During the afternoon, all partners went for a city tour to meet the city and some businesses located at the city center that implement sustainable practices involving youth. Day 1 was finalized with a dinner offered by CARDET;
- 6th of December study visit to two local businesses and one youth center located at Agros village. During the study visit, the participants had the opportunity to learn about the sustainable practices of the two businesses, discuss with the business owners and exchange useful information about the details of each best practice and network. During the visit at the youth centre, the participants were informed about the centre's activities with youth and exchange ideas on how to enhance youth involvement in action towards the mitigation of climate change. Participants had lunch and then returned back to Nicosia;
- 7th of December was the departure day.

The duration of the event was 2 days + 2 additional travel days for the international participants. The event hosted a total of 50 participants from 8 different European countries (Romania, Spain, Greece, Cyprus, Ireland, Slovenia, Croatia, Italy), all over 18 years old. There were in total 42 women and 8 men, with an equal number of international participants delegated by the partners. The target audience was youth, in order to enhance their awareness and their sense of responsibility towards the climate change problem. Parallel to that, participants had the opportunity to better understand the consequences of their own decision-making. Some of the participants were members of different NGOs and associations, and throughout the activities, gender considerations were incorporated in the implementation, assuring mainstreaming and balance.

The information on the event is published on CARDET website: Link: <https://cardet.org/project-news/green-it-your-skills-event-in-cyprus/>
