ABOUT THE PROJECT

The GREEN SHOOTS Project aims to advance knowledge and pedagogy among Vocational Education and Training (VET) teachers and trainers in the context of the green economy. Through EU initiatives such as the Green Deal and GreenComp, the project focuses on enhancing technical green skills, digital education, and pedagogical competencies. Our mission is to elevate the quality of VET offerings and foster positive vocational outcomes for learners.

SECOND TRANSNATIONAL PARTNER MEETING

On November 26, 2024, the second transnational partner meeting of the Green Shoots project took place in Nicosia, Cyprus. Hosted by CARDET, the meeting brought together representatives from partner organisations across Europe to align efforts on advancing green skills in vocational education.

Key Highlights:

The meeting covered critical areas of the project, including administrative rules, project management plans, and the development of competence profiles for green careers. Partners also worked on the Green Shoots eLearning platform, discussing its value proposition, prototype, and scenario development. The afternoon sessions focused on CPD training for VET professionals, curriculum design, and strategies for communication and dissemination to ensure the project's long-term impact.

WHAT'S NEXT?

The next steps for the Green Shoots project include:

1. Finalising the micro-credential frameworks for green careers.
2. Prototyping and testing the eLearning course materials.
3. Preparing for the upcoming TTE in Croatia.

THANK YOU!

A huge thank-you to all partners for their contributions and collaboration. Stay tuned for updates in our next newsletter as we continue to advance green skills in VET education.

PROJECT PARTNERS

We are proud to collaborate with:

- Fundación Pascual Tomás (Spain).
- Future in Perspective Limited (Ireland).
- Callidus Institution for Adult Education (Croatia).
- Exeo Lab Srl (Italy).
- CARDET (Cyprus).
- Skills Elevation FHB (Germany).
- Infinitivity Design Labs (France).
